LinkedOut? A Field Experiment on Discrimination in Job Network Formation

with Yulia Evsyukova and Wladislaw Mill

The Quarterly Journal of Economics

We assess the impact of discrimination on Black individuals' job networks across the U.S. using a two-stage field experiment with 400+ fictitious LinkedIn profiles. In the first stage, we vary race via A.I.-generated images only and find that Black profiles' connection requests are 13 percent less likely to be accepted. Based on users' CVs, we find widespread discrimination across social groups. In the second stage, we exogenously endow Black and White profiles with the same networks and ask connected users for career advice. We find no evidence of direct discrimination in information provision. However, when taking into account differences in the composition and size of networks, Black profiles receive substantially fewer replies. Our findings suggest that gatekeeping is a key driver of Black-White disparities.

Few Voices, Strong Echo : Measuring Follower Homogeneity of Politicians' Twitter Accounts

New Media & Society, 2024 (online first 2022)

Politicians have discovered Twitter as a tool for political communication. If information provided by politicians is circulated in ideologically segregated user networks, political polarization may be fostered. Using network information on all 1.78 million unique followers of German Members of Parliament by October 2018, follower homogeneity across politicians and parties is measured. While the overall homogeneity is low, politicians of the AfD - a right-wing populist party - stand out with very homogeneous follower networks. These are largely driven by a small group of strongly committed partisans that make up around 7 percent of the party's but around 55-75 percent of the average AfD politician's followers. The findings add to the literature by showing potentially unequal distributions of network segregation on Twitter. Further, they suggest that small groups of active users can multiply their influence online, which has important implications for future research on echo chambers and other online phenomena.

WORKING PAPERS

Broadcasting Change : India's Community Radio Policy and Women's Empowerment

Job Market Paper

ESEM Award for the best applied paper – Econometric Society Europe Meeting (ESEM) 2024

In poor countries, the interaction of early marriage, early motherhood, and low education attainment disempowers women and limits their life opportunities. Even as countries grow richer, gender inequality is often sustained by social norms, thereby limiting welfare gains from women's empowerment. I investigate the use of media as a cheap and scalable policy to empower women. In 2006, India enacted a community radio policy that grants radio licenses to NGOs and educational institutions with the aim to

foster local development. I collect original data on the content and coverage areas of all 250+ radios. I uncover women's empowerment as a key theme through topic modeling and GPT-based analyses of radio show recordings. For identification, I exploit topography-driven variation in radio access and develop a novel econometric approach to deal with randomly displaced geolocated household data. The results show that women exposed to radio gain an additional 0.3 years of education and are 4.1pp (10%) more likely to obtain a secondary degree. In line with increased education, exposure reduces child marriages by 1.4pp (37%) and fertility of young women by around 10% while they are 11pp more likely to exhibit autonomy in household decisions. The findings demonstrate that community media can effectively address gender inequality.

WORK IN PROGRESS

Reporting the Big News, Missing the Big Picture? Stock Market Performance in the Media *with Antonio Ciccone*

We find that in the US and in Europe, the media report more on the country's main stock market index when daily changes are large, especially when large and negative. To understand how the direction and magnitude of daily index changes affect whether changes make it into the news, we collect data on DAX reports on Germany's most watched and highly trusted nightly news over the 2016-24 period. We find a stark difference between the average daily DAX change on days with and days without reports. The average daily change on days with reports is -8.44 points. By contrast, the average daily change in the period of interest was +4 points amounting to an increase by 85%. A third of this reporting bias arises because the news is more likely to report negative DAX changes than positive changes of the same magnitude. However, two thirds of the bias would have emerged even if the news had reported negative and positive changes of the same magnitude with the same likelihood. This is because of an interaction between the news' focus on larger DAX changes and asymmetries in the distribution of daily DAX changes. We show that this finding generalizes to the main stock market index of other European countries and the US.

Multi100 - Estimating the Analytic Robustness of Social and Behavioural Sciences *with >450 co-authors; manuscript under preparation*

Crowd-sourced replication study of 100+ studies in the social sciences. Organized by the Open Science Foundation (OSF).

GRANTS, SCHOLARSHIPS, AND AWARDS

- 2023 - 2026** Add-on Fellowship for Interdisciplinary Research in Economics, Joachim Herz Foundation (12,500€ research grant)
- 2024** Award for best applied paper by a young researcher (up to 10 years after PhD) at the Econometric Society's Europe Meeting (ESEM) 2024
- 2024** CRC TR 224 Research Grant (4,000€)
- 2021** CRC TR 224 Research Grant (>4,000€)
- 2019 - 2021** PhD Scholarship, Freudenberg Foundation & ZEW
- 2020** Second Prize - Goldmedia Award for innovative theses in Media Economics
- 2014 - 2019** German National Merit Foundation (Studienstiftung des deutschen Volkes)- Scholarship for 'academic excellence, interdisciplinary expertise, and social responsibility'
- 2016** StudyUp-Award for excellent bachelor's theses, Osnabrück University of Applied Sciences

PROFESSIONAL ACTIVITIES

- | | |
|---------------------------|---|
| Presentations | 2025 : LISER Luxemburg, University of Gothenburg, Max Planck Institute for Research on Collective Goods (Bonn), ifo Institute (Munich), Bocconi University (LEAP); 2024 : ASSA Annual Meeting (San Antonio), Federal Communications Commission (FCC) Economic Seminars, Asia Meeting of the Econometric Society (Hangzhou), Europe Meeting of the Econometric Society (Rotterdam), Royal Economic Society Annual Conference (Belfast), ifo Digital Transformation & Innovation Seminar (Munich), Joachim Herz Foundation (Hamburg), CRC TR224 YR Workshop (Bonn & Mannheim), FHM+ Workshop in Development Economics (Mannheim); 2023 : NBER Summer Institute : Labor Studies, Advances with Field Experiments (Chicago), Discrimination and Diversity Workshop (University of East Anglia), Institute of Labor Economics (IZA), Pompeu Fabra University (PhD & Internal Applied Seminar), London Business School Transatlantic Doctoral Conference, Nordic Conference in Development Economics (Gothenburg), German Development Economics Conference, German Economic Association Annual Conference, Barcelona School of Economics PhD Jamboree, HeiKaMaXY Workshop (Heidelberg), CRC TR224 Retreat (U Bonn & Mannheim); 2022 : CRC TR224 YR Workshop (Bonn & Mannheim), Frankfurt-Mannheim PhD Workshop; 2020 : Bonn-Mannheim PhD Workshop; 2019 : ZEW Conference on the Economics of Information and Communication Technologies |
| Field Research | Independent field research on community radios across northern India (03/2022 - 04/2022) |
| Event Organization | 2023 : Co-organizer of the 1st Frankfurt-Mannheim-Bonn Ph.D. Conference (90 presentations, 160 participants) 2022 : Co-organizer of the 1st Frankfurt-Mannheim Ph.D. Workshop (43 presentations, 100 participants) |

Summer Schools 2024 : Add-on Meeting on Science Communication (Joachim Herz Foundation); 2023 : CRC Media Training (EconNewsNetwork), Data Science Summer School 2023 (Hertie School); 2022 : Network Analysis Workshop (LMU Munich), Natural Language Processing for Economists Workshop (Uni Heidelberg), Data Science Summer School 2022 (Hertie School); 2021 : Unstructured Data in Empirical Economics (CEMFI), Data Science Summer School 2021 (Hertie School)

Referee Information, Communication & Society; New Media & Society

TEACHING EXPERIENCE AND RESEARCH ASSISTANCE

2021 - present Research assistant to Antonio Ciccone, University of Mannheim & Fellow at Collaborative Research Center Transregio 224 (Universities of Bonn and Mannheim)

2021 Microeconomics B (B.Sc.), teaching assistant, University of Mannheim

2021 Introduction to Econometrics (B.Sc.), teaching assistant, University of Mannheim

2019 Master's thesis student/ intern, Digital Economy Research Department, Leibniz Centre for European Economic Research (ZEW), Mannheim, Germany

EXTRACURRICULARS

2019 - present Ph.D. Cohort Representative

2019 - 2023 Elected member of the Department Council

2021 - 2022 Mentor, Graduate Applications International Network (GAIN) : support of an African student in Economics applying for graduate studies at European and North American universities

2015 - 2019 Seminars of the German National Merit Foundation : [1] Two-year Social Science Research Seminar 2017-19 - Digitization, Ethics, and Society: An Integrative Analysis, [2] Weekend Seminar 2017 - Effective Altruism : Risks of Artificial Intelligence, [3] Weekend Seminar 2016 - Freedom vs. Security : The Internet as a new Space for an Enduring Conflict, [4] Summer School 2015 - Narratives of the Future : Visionary Utopia or Botch?

2018 - 2019 Board Member of 'Nice to Meet You' at Uni Mannheim - a student refugee-integration project.

2015 - 2016 Campus Without Borders in Osnabrück : setup of a student refugee integration project.

NON-ACADEMIC PROFESSIONAL EXPERIENCE

03/2015 - 07/2015 Internship, Political Department, German Embassy Beijing, China

07/2013 - 09/2013 Internship, Strategic Finance, Deutsche Börse AG, Frankfurt am Main, Germany

07/2011 - 09/2011 Internship, Various Business Departments, Frimo Inc, Detroit, USA

MISCELLANEOUS

Citizenship German

Languages German (native), English (fluent - TOEFL 2019 : 114 of 120 points / Top 3%), Spanish (B1)

Technical Skills R, Python, Stata, Qualtrics, QGIS
